

Instrumentation

At **Campion Mechanical & Electrical Engineering** we employ both software and hardware engineers who are trained to provide our customers with a total solution for their instrumentation needs.

● *Mag Meter.*

● *Data Logger.*

● *PLC.*

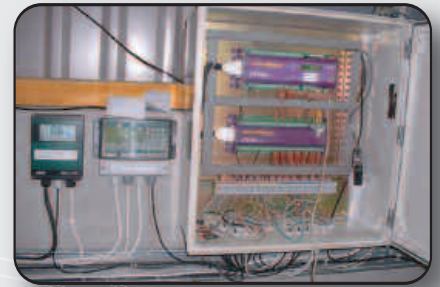

● *HMI Interface.*

At **Campion Mechanical & Electrical Engineering** we offer our customers a total solution whereby we undertake an entire project and source all the required electronic instrumentation needed for the job, This gets rid of the problem of different contractors blaming each other for problems on a single job.

To discuss your project and for a free quotation please do not hesitate to contact us.

● *Full Scada System.*
